

Mini-symposium to launch RevGenUK
'An integrated informatics and resources platform
for reverse genetics in dicots'
Genome Centre
John Innes Centre
May 15 2008

Programme

- 09.45 -10.00 Chris Lamb, Director of the John Innes Centre
Trevor Wang, Associate Head of Metabolic Biology

'Welcome and Introduction'
- 10.00 -10.45 Michael Udvardi, Plant Biology, Noble Foundation, Oklahoma.

'Genetics and Genomics of *Medicago truncatula*'
- 10.45 -11.15 Coffee/tea
- 11.15 -12.00 Isobel Parkin, Plant Sciences, University of Saskatchewan (Chair of the
Multinational Brassica Genome Project Steering Committee)

'Application of Genomics to Crop Improvement in Brassica Species'
- 12.00 -12.30 Christian Rogers, Disease and Stress Biology, JIC

'Deletion TILLING in *Medicago*'
- 12.30 -13.45 Lunch
- 13.45 -14.30 Martin Parniske, Genetics, LMU Munich, Germany

'Dissecting root nodule symbiosis through forward and reverse
genetics in *Lotus japonicus*'
- 14.30 -15.00 David Baker, The Genome Laboratory, JIC

'TILLING using the ABI3730'
- 15.00 -15.30 Pauline Stephenson, Crop Genetics, JIC

'The *B. rapa* tILLING Of Norwich - 'BILLION' - population'
- 15.30 -16.00 Jillian Perry, RevGenUK Manager, JIC

'TILLING in *Lotus japonicus*'
- 16.00 Close and tea/coffee

All are welcome. If you would like to attend please register with
